

Smart Art cards

"Sea Shell"

Step By Step Instructions

Materials

Pink Bazzill Card
White Textured Card
Brown Paper Bag
Shell
Happy B'day Stamp – Stamp It

Happy B'day Stamp - Stamp It

Construction

1. Create a square card from pink Bazzill card, approx. 14cm x 14cm.
2. Measure and cut a smaller square of white textured card and attach to card.
3. Measure and cut an even smaller square of brown paper giving the edges a ripped effect. Attach to card.
4. Attach shell to brown paper with either craft glue or double sided 3D mounting tape.
5. Stamp greeting.

! Wendy's Tip

Ripped edges is a creative and popular effect used in card making. I always find it awkward to hand rip a square into the shape I intend, so I use a 'ripping ruler'. They are a fantastic way to get the ripped effect you want but also retaining the shape you wanted! They are available in most craft stores and even department stores in the stationary/craft section.
